## PROFESSIONAL SUMMARY

Results-driven frontend Developer with 1+ years of experience specializing in modern web technologies and AI integrations. Proven track record of building scalable applications, managing complex deployments, and leading front-end development for multiple enterprise projects. Expertise in Next.js, React, TailwindCSS, and DevOps workflows with hands-on experience using Dokploy for automated deployments and server management.

## EDUCATION

**B.E - Computer Science & Engineering (IoT, Cybersecurity & Blockchain)** Aug 2021 – Jun 2024  
*Lokmanya Tilak College of Engineering* *Navi Mumbai*

**Diploma in Information Technology** Aug 2018 – Jun 2021  
*Bharati Vidyapeeth Institute of Technology* *Navi Mumbai*

## EXPERIENCE

**Frontend Developer @ Zep Research** 📁 | Next.js, React.js, CC Avenue, OJS **Aug 2024 – Present**

- Lead frontend developer responsible for architecting, building, and maintaining 6+ enterprise websites including main company portal and international conference platforms.
- Integrated payment gateways (CC Avenue), email automation systems, and RESTful APIs to streamline conference registrations and improve user workflow efficiency by 40%.
- Managed complete DevOps pipeline: server procurement, deployment configuration of Open Journal Systems (OJS), DNS management, Nginx configuration, and VPS administration on GoDaddy infrastructure.
- Developed SEO-optimized, fully responsive websites using Next.js and TailwindCSS, achieving 95+ PageSpeed scores and seamless cross-device compatibility.

**Freelance Web Developer** | React.js, Next.js, TailwindCSS, JavaScript **2022 – Present**

- Worked with multiple clients including StartSecure, Web-Creater, Wevox, and Active Delights to deliver high-quality web solutions tailored to their business needs.
- Developed and maintained responsive websites and web applications, focusing on clean UI design, performance optimization, and modern frontend best practices.
- Collaborated closely with founders and project managers to understand requirements, propose scalable solutions, and deliver projects within deadlines.

## PROJECTS

**Companion AI - LMS SaaS Platform** | Next.js, Supabase, Vapi, Clerk, Stripe, shadcn/ui

- Built a comprehensive AI-powered Learning Management System featuring real-time voice AI tutoring sessions with multilingual support and low-latency interactions.
- Implemented secure user authentication with Clerk, subscription management with Stripe, and real-time database operations using Supabase PostgreSQL.

## TECHNICAL SKILLS

**Programming Languages:** JavaScript, TypeScript, Python, Solidity, Rust, HTML5, CSS3, SQL

**Frontend Technologies:** React.js, Next.js, TailwindCSS, shadcn/ui, Framer Motion, Responsive Design

**Backend & Database:** Node.js, Supabase, PostgreSQL, Prisma ORM, REST APIs, GraphQL

**Cloud & DevOps:** Vercel, AWS, Docker, Nginx, DNS Management, VPS Administration, CI/CD

**AI & Integration:** OpenAI API, Vapi, Replicate, Voice AI, Natural Language Processing

**Authentication & Payments:** Clerk, NextAuth, Stripe, CC Avenue, OAuth

**Development Tools:** Git, GitHub, VS Code, Postman, Sentry, Zod Validation, Jest

**Blockchain Technologies:** Ethereum, Hardhat, Truffle, Web3.js, Smart Contracts

## ACHIEVEMENTS & PUBLICATIONS

- "A Study of Merge's Potential to Prevent the Crypto-Verse" (2023) - Published in 1st International Conference on Recent Trends in Multidisciplinary Research and Innovation (ICRMIR-23)
